Mr. Tom McCloskey  
Missouri Department of Transportation  
1590 Woodlake Drive  
Chesterfield, MO 63017-5712

**RE: Public Interest Finding  
Bailey Road Improvements, STP-5403(633)  
Crystal City, Missouri**

Mr. McCloskey:

I do hereby certify that in accordance with the requirements of 23 CFR 635.411(a)(2), this patented or proprietary item is essential for synchronization with existing highway facilities.

  
Kathryn P. Harvey, State Design Engineer

With reference to the above-mentioned project, we are requesting approval of a finding in the public interest to use the following items:

1. Street Light Pole for Single Lights: Antique Street Lamps – Washington Series – 14' Ornamental Cast Aluminum Fluted Pole:

#PX W19 14 F5 FGIUL-S 2BAC29 BACD5 24B4 ANBK

2. Street Light Pole for Twin Lights: Antique Street Lamps – Washington Series – 14' Ornamental Cast Aluminum Fluted Pole with Crossarms:

#PX W19 14 F5 FGIUL-S 2BAC29 BACD5 24B4 ACA30 HDF ANBK

3. Decorative Light Luminaire for Single and Twin Lights: HCI Lighting – Decorative Post-Top Lantern Style Luminaire:

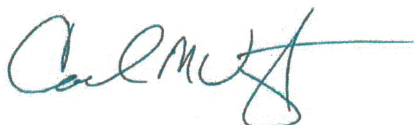

#101-L-R-FAC-150HPS-CWA-24QT-BR3-FA-RAL9011

These items were designed with proprietary components in order to insure compatibility with existing City infrastructure. This project is an extension of a previous project that used these lights and is along the same corridor. It is also in the City's plan to use this light on future projects adjacent to Bailey Road.

Past field performance has demonstrated that these products are reliable and work well with other system components. They will not differ from the existing City street lighting inventories, thus simplifying supply chain issues, nor will they require additional training of personnel.

Approval of this request would be appreciated so these items may remain eligible for federal reimbursement.

Sincerely,

Carl M. Vogt, P.E.
